ONE of the strange things in connection with the death of the Queen is the fact that CRADDOCK has failed to relate that he once met her hand-maiden on his train.

In the House the other day Congressman WHEELER of this state had the boldness to say that BRYAN was not the Democratic party. This is likely to precipitate an emphatic denial from the Big Ike of Nebraska.

DURING the past week acting Governor BECKHAM has rejected more than fifty applications for pardons. A number of these were from corporations fined for failure to report to the Auditor. It's a safe bet that no pardons will be granted in cases where the "masheen" loses a dollar.

THE Louisville Dispatch says the Court of Appeals will have an opportunity to pass upon the honesty of the Democratic office steal when Judge CLIFTON J. PRATT files his suit against Judge BRECKINRIDGE. If this serves no other purpose, it will at least prove or disprove that the former decision of the Court was governed by partisanship.

THE Louisville Dispatch is moved to this solemn remark about the Kansas saloon-wreck—

"Mrs. CARRIE NATION got a good drubbing yesterday at the hands of the wife of a saloon-keeper whose property she was attempting to destroy. Mrs. NATION needs more like this three times a day, and even then it is doubtful if all the damphool could be knocked out of her."

The statement made in the Frankfort correspondence of The Courier-Journal that objection would be made to Judge O'REAR sitting in the appellate case of Pratt vs. Breckinridge, but from another source. The acting Attorney General in discussing the matter said that he had no objection to Judge O'REAR sitting, and that so far as he knew no such objection would be made.

CIRCUIT JUDGE HODGE of Newport sent E. L. HAVES, reporter for a Cincinnati-Covington newspaper, to jail for twelve hours for contempt of Court in criticizing the Judge's disposition of a lawsuit. Some of the Judges of Kentucky—especially those around the mouth of the Licking—are getting too big for their pantaloons. Courts that decide issues upon political prejudices alone deserve the contempt of every honest man and woman in the state. Just now there are very few Jim HARBESONS on the Bench in poor old Kentucky.

FACTS ARE STUBBORN.

If Maysville People Are Not Convinced By Local Testimony They Differ From Other People.

Facts are stubborn.

Some may be disputed.

None can be disproved.

A fact is always hedged about with proof.

Has to stand the test of investigation. Or it drifts to the realm of doubt. Investigate closely the following: The closer the scrutiny the more convincing the results.

A Maysville citizen speaks here—

Speaks from experience and conviction.

Mr. Frank Burgoyne of 331 East Third street says:

"Greater praise cannot be given Doan's Kidney Pills than their wonderful merit fully deserves. I procured them at J. J. Wood & Son's Drugstore, corner of West Second and Market streets. The use of this remarkable remedy demonstrated beyond question that if taken properly a cure surely will follow."

State Board Wants Valuation of Franchises of Foreign Corporations Increased.

Frankfort, Ky., Jan. 29.—The state board of valuation, it is said, is preparing to go after corporations on the assessment of their corporate franchises. It is understood Secretary of State Hill and State Treasurer Hager, constituting a majority of the board, are standing out for a radical increase in the valuation of all franchises, while Auditor Comber, the minority member, favors a conservative increase of from 8 to 10 per cent.

If the temporary valuations placed by the two majority members stand, the tax valuations of corporations will be increased enormously, and it is predicted that numerous foreign corporations, as well as many domestic corporations, will regard the assessments as prohibitive and will withdraw from the state in consequence.

Trainer Julius Bauer.

Lexington, Ky., Jan. 29.—Julius Bauer, the well-known and successful trainer, has arrived in Lexington after a trip to Europe, and will begin work on the extensive string of A. Featherstone, the Chicago millionaire manufacturer and owner of Meisner, the largest 2-year-old winner of the year in 1902. There are a number of 2-year-olds at the farm which are considered specially promising.

Young Man Accidentally Shot.

Versailles, Ky., Jan. 29.—During a playful scuffle between Claude Kincaid, aged 21, and Thurman Ventnor, aged 18, over the possession of a shotgun, the gun was discharged into young Kincaid's abdomen and instantly killed him. Both belonged to prominent families, young Ventnor being the son of J. T. Ventnor, a wealthy live stock dealer of Wilmore, Kentucky.

Settled Disputes With Gans.

Middlesboro, Ky., Jan. 29.—Bill Poplin, a youth, mortally wounded John Evans, an old man, at Reliance Mills, nine miles from Middlesboro. They fell out over Evans having phoned young Poplin's father. Poplin shot Evans four times. Poplin has not been arrested. Bud Wilson, a mountaineer, shot and mortally wounded John Spivey near this town. They quarreled over a woman.

New Electric Railway Company.

Frankfort, Ky., Jan. 29.—The Louisville, Anchorage & Pewee Valley Electric Railway was incorporated Monday with a capital stock of \$100,000 and privilege of increasing it to \$750,000. H. H. Bechtel, of Cincinnati; C. C. Tenant, of New York, and Louisville capitalists are in it, and the company is projecting a network of electric lines connecting many of the smaller towns of the state.

Telephone Franchise Sold.

Louisville, Ky., Jan. 29.—A franchise for a new telephone company was sold Monday by the board of public works. E. M. Colburn, bid \$10,000 and got the franchise. He is said to be at the head of a company which will try to compete with the Cumberland Telephone Co. in this city.

Telegraph Company Indicted.

Louisville, Ky., Jan. 29.—The grand jury returned two indictments against the Western Union Telegraph Co. for maintaining a nuisance in furnishing information to the Turf Exchange and Kingston poolrooms, without which it is set forth in the bill, the poolrooms could not carry on their business.

Negroes Goaded to Homicide.

Princeton, Ky., Jan. 29.—Representatives of wealthy planters of the Savannah Islands were here securing Negroes for services on their plantations. They offered first-class transportation, board, clothing and \$20 a month for common laborers. A large number of Negroes have left this city, Hopkinsville and Paducah.

To Make Their Own Beer.

Louisville, Ky., Jan. 29.—The saloon keepers of Louisville have secured an option on the plant of the Stein Brewing Co., assigned and not running, and are hustling to secure enough stock subscriptions to pay for it.

Died of Lockjaw.

Lancaster, Ky., Jan. 29.—T. L. Saunders, a wealthy merchant of Stone, this county, died from lockjaw, caused by running a nail into his foot.

Family Crushed.

Middlesboro, Ky., Jan. 29.—John Williams, his wife and child were crushed to death on Clinch river, while sleeping, by a tree falling on their house.

Aged Man Sent Up.

Columbia, Ky., Jan. 29.—Jo W. Akin, 65 years old, was on Thursday given one year in the penitentiary for shooting Charles Kingly last summer at Sharkeyville.

Maj. Thomas Improving.

Lexington, Ky., Jan. 29.—Maj. B. O. Thomas is fast recovering, and is now able to meet his friends in his home.

Will McDaniel's Engagement.

Lexington, Ky., Jan. 29.—Will McDaniel has signed for 1901 with the Hitecheek, Jr., and is now in charge of his string at Aiken, S. C.

Of the \$16,000 subscribed by the Kentucky Conference to the Twentieth Century Fund about \$6,000 is unpaid.

Miss Minnie Ricketts has resigned her position at Geo. Gox & Son's. Her friends will regret to hear of this.

The gross earnings of the L. and N. for the third week of January were \$275, an increase of \$10,000 over the corresponding week last year.

The Goebl Roward Commission held a meeting at Frankfort yesterday. Numerous expense accounts in connection with the recent trials were allowed. According to reports given to the press, total appropriations by the commission up to the present is something like \$7,000, paid out of the \$100,000 provided by the Legislature.

Take a cup of Arbuckles' Coffee and a cup of the "cent-a-pound-cheaper" kind. One taste of each will prove to you that the reason Arbuckles' costs a little more is because it's worth more. It's selected with greater pains, roasted with greater care, packed with greater skill. It comes to you as fresh as when it left the roaster. Not a particle of its strength or flavor lost. Cheap coffee lacks both strength and flavor.

ARBUCKLES' Roasted Coffee

is cheaper in the end than other coffees because it makes more cupfuls to the pound and gives far greater satisfaction.

With each package of Arbuckles' Coffee you purchase a definite part of some useful article—which is yours on presentation to our Notion Dept. of a certain number of signatures cut from the wrappers. You'll find a list of the articles in each package.

ARBUCKLE BROS., Notion Dept., New York City, N. Y.

and brought to us electricity by the basketful, and which is now being used for various purposes. Is this the work of Nature? Nay, not by a jug full. Look at the primitive conditions of agriculture when Adam and Eve were placed in the Garden of Eden, and allowed to run at large; did Nature clothe them? Compare the wilderness with the cities that have bobbed up here and there—New York, Sandusky and San Francisco, the scenic production on the theatrical stage. Is all this due to Nature? Nay, the whole shooting match is the Art Man. New things come up and old things pass out; a man may turn somersaults backwards and forwards and twist himself into divers shapes, that Nature would frown to tolerate. After Mr. Dryden had divulged only a small portion of his nomenclature the time allotted to him was consumed and he was forced to resume his seat.

Mr. Turpin, the speaker best fitted to close the negative side, elicited much applause as he appeared upon the floor. He said that Nature was a fire and at the same time a voluntary agent having the power or Art of creating things with regularity and designs, (nature esse ignem, artificem esse gignendum progreduendum) To this fire not only creative force and systematic action were ascribed, but actual personality. Nature was "non artificem solum, sed plane artificem" that which is the work of human art is done by the hands, is done with much greater art by Nature. Art merges into Nature. It is the proprium of art to create and beget. Nature creates and begets, therefore Nature is an artist or Demiurgus.

After a brief review by Mr. Pollitt, the two Judges who were selected to try the case were divided in opinion and made it an even break. The meeting adjourned till next Friday night when each speaker will discuss his own subject. Many a bright and happy household has been thrown into sorrow because of the death of a loved one from Syphilis. It is the great cure for syphilis, and all venereal diseases, and all skin diseases. Mayville Weather.

Just May Be Expected Here During the Next Thirty-a. Hours.

THE WEATHER.

White streamer—Fair. Blue—Rain of snow. Black—Snow—Till warmer snow. Black—Rain—Children will be. It Black's not shown no change will be. The above forecasts are made for a period of thirty-a. hours, ending at 8 o'clock tomorrow evening.

RIVER NEWS.

The river is falling all along the line.

The Virginia is due up tonight for Wheeling and Pittsburgh.

The Bonanza from Pomeroy will pass down tonight for Cincinnati.

The Henry M. Stanley was up last night for Pomeroy with a big start.

Lots of snow in the mountains, and with a little rain a big river would result.

Pittsburgh harbor is congested with loaded and empty coal craft and towboats.

Towboats with empties have been making things lively along the river for the past week.

When a coalboat stage develops at headwaters the combine will be able to get out an immense amount of coal.

People along the river had better keep their weather eye open next month. There will be wind and water to waste.

The new Morning Star being built by Howard for the Evansville Mail Company is to be one of the best and handiest sidewheel boats the company ever owned.

The Charles B. Pearce has almost been entirely rebuilt on the Marine Ways at Madison. A new and roomy Texas has been added to her cabin and such other improvements added as to make her a better boat than she ever was.

An mercury will surely destroy the sense of smell and completely destroy the whole system, such as it is through the mucous surface. Such articles should never be used except on prescription from a reputable physician, as the danger they will do is fearful to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. It is a sure cure for all such cases. It is a sure cure for all such cases. It is a sure cure for all such cases.

LIMESTONE DEBATERERS!

"Argufiers" Provoked a Perfect Whirlpool of Laughter.

GET OUT YOUR HOG LATIN TEXT BOOK

On last Friday evening the Fire Hall in the Sixth Ward was the scene of a most interesting and amusing debate between the members of the Limestone Debating Club.

It was the first since its reorganization, and was characterized and surrounded by those elements which elude the argument produced upon the river for the past week.

When a coalboat stage develops at headwaters the combine will be able to get out an immense amount of coal.

People along the river had better keep their weather eye open next month. There will be wind and water to waste.

champion of Nature, in a brief review remarks. He threw upon it an X-ray and exposed an unimpaired Nature until the whole was fascinating and so attractive that no works of Art dare resist. He proved that in the annals of the human family there have existed, and do exist today, diminutive feminine specimens of humanity, whose most conspicuous personal decorations were a capillary appendage of minute dimensions. When she with her alabaster brow was amiably disposed, she produced upon all beholders the impression of being excessively agreeable, whose smiles would generate a feeling of profound sympathy, whose eyes would pierce the heart like a needle, and whose mouth would speak to you words of undying love. In all, Mr. Williams painted a true picture of Nature, and one would declare him to be a gentleman and scholar.

Mr. Dieterich, the popular young President of the Club, whose traits of character tend to elevate and serve as an example of ambition and energy, followed in pursuit. His speech was extemporaneous and he therefore spoke on the spur of the moment. He showed in a single instance how that it was the Art of Man that attracted people by thousands in number to the World's Fair.

Mr. Daly, who has been honored with the sobriquet, "The Goliath of the Fifth," then occupied the floor for several lengths of periods. The reception which he received was enthusiastic and prolonged to an almost unprecedented degree. He said that things of Nature are human art, and he at once began to paint before the minds of his hearers a landscape of the beauty and sublimity of the sun, moon and stars, the flowers in the garden and the birds as they soar in the heavens. "Look at great American Eagle as he flies from the cloud-capped summits of Brooklyn Heights to the clammy beds of Coney Island! Can the Art of Man take you to Heaven? These present a picture no art can paint." His speech was so sugar and so coffee were no more due to the progress of Art than the idea that money can be plucked from the trees. Nature, he continued, that everybody admires the picture of Rumor drawn by Virgil; but let a painter try to realize this symbolic figure—let him represent to us a huge monster with an hundred eyes, an hundred mouths and an hundred ears, whose feet touch the earth, whose head is lost in the clouds, and whose figure will become very ridiculous.

Mr. Dryden then followed. Tall in stature and with a commanding countenance, while his subtle reasonings and facetious gaiety had procured him the honorable appellation of the "Fell Syamoor," was received with wild applause. He started out by reviewing the history from the time of Adam down to the time when "Noah built the ark." Comparing Nature then with the wonderful developments brought about by the Art of Man today—such as the wilderness versus flourishing cities—we don't have to go all the way to the Northern Pacific for snow-dashed ice, but it can be produced at home by artificial means. Look at the time when Noah built the ark to the clouds.
